GOMPERS AFTER TAFT

Labor Leader Declares War on His Candidacy For Presidency.

BEGINS FORMAL CAMPAIGN

He Thinks If the Secretary Were Elected His Policies Would Be Extremely Detrimental to the Interests of Organized Labor in the U. S.

Washington, Sept. 30.—Samuel Gompers, president of the American Federation of Labor, began a formal campaign Friday against Secretary Taft as a presidential candidate. In the course of a five-page editorial in the official organ of the Federation Gompers says:

"Secretary Taft's contention with reference to what he terms the 'boy-cott,' would, if carried to its logical result, lead to the dispersion and forcible breaking up by court orders, of every assemblage of workmen, however innocent or lawful their purpose, and to the nullification of all their arrangements.

"The fact of the matter is that Secretary Taft as a presidential aspirant is 'afraid' he may have ruffled a feather here and there in the plume of capitalistic power. He substantially assures them that if they will but give him their support he will hand over to the tender mercies of the worst elements of the capitalistic class the workmen of the United States, bound hand and foot, shackled by injunctions for which he will stand.

"One of the reasons which he gave for advising the people of Oklahoma to reject the constitution was that, in his opinion, it contained a bad and dangerous limitation upon the power of the courts to grant and enforce writs of injunction. The injunction, he declared, was one of the most valuable, beneficial and essential instruments of law and justice."

BITTER FEELING PREVAILS.

Jamaicans Charge that Insurance Companies Are Delaying Cases.

Kingston, Jamaica, Sept. 30.—There is a bitter feeling against the English insurance companies growing out of the actions arising from the disaster of last January. It is charged that the companies are delaying the cases by technicalities.

Their last move is an announcement by counsel that the companies propose in one action to make a counter claim for the declaration that loss sustained by the policy holders was caused by an earthquake.

This means, if it succeeds, that other cases cannot be proceeded with because the companies would win under the earthquake clause.

Merchants think that local companies should be formed to carry insurance. As the restoration of Kingston progresses the boycott of English concerns increases.

OLD EDITOR PASSES AWAY.

Col. Sanders, of Nashville American, Dies at Age of 77.

Nashville, Tenn., Sept. 30.—Colonel Rufess Sanders, aged 77 years, died of a local infirmity Friday evening. He was widely known, and was probably the oldest active newspaper man in the south.

At one time he owned and edited the Planters' Journal at Richmond, Va., and at one time did editorial work on the Washington Times and the New York Times. For a number of years he was on the editorial staff of the Nashville American.

Work Will Soon Be Completed.

Washington, Sept. 30.—The work of fitting the turret and gun sights of the battleship Louisiana at the Norfolk navy yard, will, it is expected, be completed by the end of September.

Grand Duke Dies.

Constantinople, Sept. 30.—The Grand Duke Frederick of Baden died Saturday of a fatal infirmity. He was unconscious for many hours before his death.

HOODLUMS INSULT WIDOW.

Her Young Daughter Then Fatally Wounds One with Bullet.

Nelsonville, Ohio, Sept. 30.—Wendell, aged 18 years, son of Frank Wendell, with a crowd of young fellows, was raising a disturbance. It is alleged, in front of a shanty occupied by Mrs. Maria Cullison, a widow, and her daughter, Ruby, aged 15 years, at midnight. Mrs. Cullison ordered the boys away and she alleges that they insulted her, whereupon Ruby came out with a pistol and fired four shots to frighten them away.

The boys ran, but Wendell, saying he had cramps, lay down by the road side. The others left him, and it was morning before he arrived at home. He aroused his parents complaining of cramps, and an examination showed that he had received a bullet wound in the pit of the stomach.

Physicians pronounced the injury as probably fatal, and he was hurried to Columbus on a morning train for an operation.

The girl gave herself up and was taken to jail at Athens in default of bond.

EXPECT DISCLOSURES.

Inquiry Into the Finances and Business Methods of Transit System.

New York, Sept. 30.—Inquiry into the finances and business methods of the Transit System in this city, based on thorough study of the books of the New York City Railroad company, the Metropolitan Securities company and the Interborough Metropolitan, will be resumed before the public service commission on Tuesday. In the course of the next few sessions, it is declared, will be disclosed conditions as startling as any which Charles E. Hughes brought out by the insurance investigations.

William M. Ivins, special counsel to the commission, has completed his scrutiny of the books of the Interborough Metropolitan Securities company, but declines emphatically to discuss his discoveries and will not outline his plan for subsequent investigation or talk at all about the reports of misuse of funds and sensational disclosures which have been rife in the financial district.

GAVE LIFE FOR FRIEND.

Act of Heroism of a Louisville and Nashville Fireman.

Louisville, Ky., Sept. 30.—George Hufnagle, a fireman in the employ of the Louisville and Nashville railroad, died of injuries received in trying to save the life of a companion. Hufnagle and Albert Bowers were walking along the track to the round house. They failed to see the approach of a cut of cars until the engine was almost upon them, and without a moment's hesitation Hufnagle, who had discovered the danger first, rushed to the aid of Bowers and pushed him safely out of harm's way.

As he did so, he stumbled and fell directly in the path of the engine and was horribly mangled.

Hufnagle's father, George D. Hufnagle, was killed in an accident at Latonia, Ky., twenty-three years ago, just a few days after the birth of the son.

Auto Blast Fatal to Man.

Cleveland, Ohio, Sept. 30.—John Conway, of West Twenty-Eighth street, was killed by fright Thursday. Conway, who was a paper hanger, was washing his car when an automobile bumped its horn. The auto was some distance away, but Conway jumped quickly to the side of the street to permit it to pass. The auto whizzed by. A moment after it had passed Conway keeled over. Men who ran to him found him dead. Heart failure, due to fright, caused death.

Inland Waterways Commission.

St. Paul, Minn., Sept. 30.—The inland waterways commission arrived in St. Paul from Duluth Friday morning and were at once taken to the Commercial club, where breakfast was served. After the meal was served, addresses were made by J. J. Hill, Archbishop Ireland and others, and then the commission was escorted to the Sibley street dock, where the boarder's steamer for the trip down the river.

TAFT AT YOKOHAMA

Safe, but Rough, Passage Made Across the Pacific.

OVATION GIVEN SECRETARY

Bay at Yokohama Was Crowded with Launches Displaying Flags of All Colors as Ship With Secretary Steamed Into the Harbor.

Yokohama, Sept. 30.—Secretary Taft arrived here early Saturday morning on board the steamer Minnesota, from Seattle, Sept. 23, passing all the signal stations without being sighted.

The various reception committees and the members of the American embassy who had come here from Tokio to welcome Mr. Taft were aroused by gunners, the town was soon enlightened and the bay was crowded with launches displaying flags and other colors.

Secretary and Mrs. Taft and Mr. O'Brien the new American ambassador to Japan and Mrs. O'Brien, who are early risers, met the visitors from the shore in the main saloon of the Minnesota, while the United States cruiser Chattanooga, anchored in the bay, saluted Secretary Taft's flag, as secretary of war, which was hoisted at the foremost.

Secretary Taft, after a brief consultation with the reception committee and others, accepted the entire program for his entertainment, but declined to participate in any function Saturday or Sunday.

On Monday the secretary will be received in audience by the Japanese emperor. Count Hayashi, the foreign minister, will give a dinner in Secretary Taft's honor on Monday evening and on Tuesday the Secretary will be entertained at luncheon by the minister of war, Lieutenant General Terauchi-Masatake, which will be followed by a reception of the American residents of Yokohama. On Wednesday Mr. Taft will attend a dinner to be given in his honor by the municipal officials of Tokio, and Thursday morning he will leave the Japanese capital for Kobe where he will embark on board the Minnesota for Manila. While in Tokio on Wednesday Mr. Taft will take luncheon with the American charge d'affaires, H. Perchal Dodge.

The Minnesota had a rough, but not unpleasant voyage across the Pacific. Secretary Taft, during his stay here will make his headquarters at the grand hotel. He is expected to make a short trip to Tokio, traveling on a special train.

CONFESSED TO LEVIN MURDER.

Woman's Disembodied Body Was Discovered in a Trunk.

Monte Carlo, Sept. 30.—Vere St. Lager Gould, whose father was an Irish magistrate and who lived for some time in Monte Carlo, and whose brother, Sir James Gould, lives in South Australia, where he works as a laborer on a railroad, has written to the local judge confessing that he and his wife Violet murdered Emma Levin, the Swedish woman, whose disembodied body was found in the baggage of the Goulds on their arrival, August 6, at Marseilles from Monte Carlo.

Gould says that the murder was planned by himself and wife.

Being at the end of their resources, through gambling, they resolved to knock her into insensibility only to knock her into insensibility and take her money and jewels, but the woman screamed, whereupon she was killed.

Mine Magnate Arrested.

St. Louis, Sept. 30.—William J. Scott, of New York city, who says he is a wealthy mine owner, quarryman and contractor, was arrested at this place on an indictment charging him with having embezzled \$5,500 from St. Louisans. The indictment alleges that he was engaged to wind up the affairs of a mining company in Utah, I. T., for \$5,500 and keep the sale, but did not turn over the money.

WITNESSES IMPEACHED.

Their Credulity Questioned in Trial of Ack Hale, at Blountville, Tenn.

Knoxville, Tenn., Sept. 30.—Six witnesses for the defense, and Ack Hale, the defendant, have been impeached in the trial of Ack Hale, at Blountville, Tenn., on the charge of murdering Lillie Davis, March 27th.

The defense Friday offered as a witness Frances Martin, who swore she came to Knoxville in 1905, with Lillie Davis, to work in a cotton mill, and that both girls went to a resort here, where Lillie Davis remained for two weeks. She swore she had heard Lillie Davis talk of committing suicide.

James and Emma Keys, of Johnson City, swore Hale and the Davis girls stayed at their house two nights. Lillie Paton, a notorious woman of Bristol, swore she had seen Lillie Davis drink whisky.

The credibility of each of these witnesses was questioned, and they were impeached. Mayor Crumley and D. A. Vines, of Johnson City, Hale's home town, swore they would not accept Hale's oath.

CAMPBELL TRIAL BEGUN.

Sixty Witnesses Have Been Summoned to Testify in Case.

Columbus, Ga., Sept. 30.—The preliminary trial of Wood C. Campbell, former marshal of Phenix City, Ala., charged with the murder of Loxin T. Edwards, at Wildwood park, on Friday, began Friday before Justice Hargett, in the superior court room at the court house.

Seven lawyers represent the defense, and two the prosecution.

Sixty witnesses have been summoned, and it is perhaps the most elaborate court trial of a preliminary nature ever held in Columbus. The court room was packed all day, most of the spectators being people from neighboring Alabama cities.

Campbell's plea is self-defense, and that Edwards tried to ruin his home. The trial will last a day or two longer.

JOKED ON GALLOWES.

Negro at Milton, Fla., Goes to His Death with Smile on Lips.

Pensacola, Fla., Sept. 30.—Laughing and joking, Kemp Holt, a negro, was hanged Friday at Milton, near here, for the murder of a man some years ago.

The negro, with the rope adjusted around his neck, was given an hour in which to pray or make a talk to his friends. He chose to talk. Not one reference was made to the crime for which he was convicted, nor did he utter a prayer, but consumed the time in telling jokes and joining in the laughter. The smile that followed the telling of his last joke had not yet left his face when the black cap was adjusted and the trap sprung.

Thousands Watch Whizzing Autos.

New York, Sept. 30.—L. W. Smelser, driver of a Losier car, and John Clarke, a spectator, were badly, possibly fatally injured when the car went off the track and through the fence Saturday afternoon. Bathusiasm in the twenty-four-hour automobile race at Morris Park track continued all during the night, 10,000 men and women watching the swift cars race around the track. There was not a minute during the night when the men were defying danger to make speed, that a tragedy was not imminent.

Steamboat Dials Sinks.

New Orleans, Sept. 30.—The steamboat Dial, running in the lower coast trade and loaded with oysters, rice and oranges, sunk here Friday morning while landing at the foot of Bienville street, and one negro cabin boy, part of the crew, is unaccounted for. Many of the crew were rescued by persons on the wharf. The boat can be raised, but the cargo, valued at \$6,000, is a total loss.

Elected Lord Mayor of London.

London, Sept. 30.—Sir John Chas. Bell, ex-sheriff of the city of London, head of a big brewery company and who has held a number of important offices in connection with the municipality, was on Saturday elected lord mayor of London, England.

LAW CONSTITUTIONAL

Many Saloons in Tennessee Will Go Out of Business.

PENDLETON LAW IS VALID

This Law Makes Mandatory the Abolition of All Saloons in All Cities in the State of Tennessee of 10,000 or Less Inhabitants.

Knoxville, Tenn., Sept. 30.—The state supreme court has held the Pendleton law to be constitutional.

This statute, enacted by the Tennessee legislature last spring, makes mandatory the abolition of saloons in all cities in Tennessee of 10,000 inhabitants or less hereafter incorporated, it being an amendment to the so-called Adams law, which prohibits saloons in all towns of 500 or less population.

It is a virtual extension of the "one-mile limit" law to all cities in the state.

Under the provisions of the law the same legislature repealed the charters of the cities of Knoxville, Bristol, Clarksville, Columbia and Jackson, and enacted new charters which, by virtue of the Pendleton law's provisions, prohibit saloons within the cities' boundaries.

After Nov. 1, saloons will exist in Tennessee only in Memphis, Nashville, Chattanooga and Polk.

EFFORT TO GET PARDON.

Roland B. Molineux Intends in Case of Edward Wise, Player.

New York, Sept. 30.—Roland B. Molineux is taking part in an effort to get a pardon for Ed. Wise, who was a member of the B. National league team when he was convicted of murder in 1938 for the killing of F. Beasley, a bookman in West Thirty-Seventh street. Wise was sentenced to die, but for Roosevelt commuted the sentence to life imprisonment.

Molineux went to the criminal courts building and secured a record of the case. There were men with Wise when Beasley killed, and Wise says each of them committed the crime.

SNAKE ENTANGLED WHEEL.

Mail Carrier's Expedition With Big Reptile of Coach Species.

Union Springs, Sept. 30.—Rural Mail Carrier J. A. Beverly had a thrilling experience with a coachwhip snake.

The reptile, about 10 feet long, became entangled in the wheel of his buggy and even the wheel made a circuit in the air as the snake lashed the mule on the neck. The propelling animal, in a dash for escape from the top of the scattered mail and buggy, was stopped, but the wreck was complete.

Bakes For Work.

Owensboro, Ky., Sept. 30.—John Crossgrove, engineer at Louisville and Nashville, again of the Memphis line, was so badly injured in a collision at Union Springs that it was necessary to amputate his arm. Conductor Stephens, slightly injured. Failure to make to work at the meeting of the trains caused the accident. Both engines were demolished and cars telescoped.

Found Man's Throat Cut.

Selma, Ala., Sept. 30.—W. C. Hagerty, a well-known man, on his return from a day, to which place he had business, found his mother-in-law in her room with her throat cut by a razor lying near by. He supposed the lady committed suicide and no cause for the act.

Shooting Slain.

Shreveport, La., Sept. 30.—The dead body of Delaney and J. Rawls, prominent plasterers, were found beside a road, near the town of Shreveport, where they had been shot.

FATHER LYNCH IN TROUBLE.

Lost His Fine Fox Terrier, and Feels Very Badly About It.

Rev. P. J. Lynch, pastor of St. Patrick's Catholic church, and one of the most kindly-hearted men in this section of the country, feels badly because he has lost his companion, "Fido," an affectionate fox terrier which has followed him and proved a true friend, for some time. It was not exactly "Fido's" intention to leave his master, but somehow the animal strayed, and Father Lynch feels as bad about it as "Fido" must feel by this time.

"Fido" is a good and handsome dog. He has been admired by all lovers of good-looking and intelligent canines, with the result that Father Lynch has got the sympathy of all dog admirers, and has got them all looking for "Fido."

The dog disappeared from home Saturday night, since which time nothing has been seen or heard of him. He is a fox terrier of medium build, white, one black ear, and the owner would very much appreciate any information leading to his recovery.

SUNDAY SCHOOL CONVENTION.

Was Held With Baptist Church Here, and Was a Great Success.

The Sunday school convention of the Santa Fe River Baptist Association, which comprises all the churches of the Santa Fe river district, adjourned Sunday at noon, after a most pleasant and beneficial session lasting since Friday.

This association, which is an adjunct of the Baptist Church, is composed of Sunday school workers, and have regular meetings on each fifth Sabbath. The convention of delegates from the various Sunday schools of the district come together for the good of Christ and the progress of the Sunday school, which accomplishes a great deal, giving the various Sunday schools an opportunity to exchange ideas and plans for the betterment and advancement of the work.

Off to New Orleans.

E. D. Stanford, special agent of the United States land office, who has been stationed in this city for the past two or three years, and who was recently promoted to be chief of staff of the ninth field, United States special agents, with headquarters in New Orleans, leaves this morning to assume his new duties, and will hereafter make his headquarters in the Crescent City.

Mr. Stanford, who is possessed of a most amiable disposition, has made many friends here who regret to see him leave. They have the consolation of knowing, however, that they will see him once in a while, as he has promised to make visits at regular intervals.

It may be that Mr. Stanford will make his headquarters here, as his territory will comprise six States.

UNION ACADEMY OPENED.

Largest Enrollment Ever Known at Opening of the School.

Union Academy, which is the colored graded and high school of the city, and one of the best of its grade for colored children in the State, was formerly opened in its fall session Monday, with one of the greatest prospects of the times before it.

This school, which is under the charge and management of Prof. T. E. DeBose, with Prof. L. A. Artson as first assistant, opened with an enrollment of 350 pupils, which is the largest on record for any previous season. The faculty and pupils were very enthusiastic and propose to begin a term which will prove fruitful at the end.

There were also many parents of children present, and they also were very much encouraged over the prospects of the season. There was a most interesting program of a literary and musical nature, after which classes were formed, lessons assigned, and the school will get down to business this morning.

Profs. DeBose and Artson are both energetic and ambitious workers, and, with the assistance of the faculty, are determined to make a good showing at the end of the year.

ORANGES WILL BE SHORT.

Drought and Rain Combined Played Havoc With This Year's Crop.

Joseph J. Tinsley, representative of the E. R. Brackett Company, New York, and one of the most thoroughly posted commission men in the State, after spending two or three days with his wife and mother in this city, left for Palatka and other points Monday in the interest of his firm.

Mr. Tinsley states that the movement of the first crop of oranges will be on in good shape the latter part of October. This crop will be short, however, running from 600,000 to 700,000 boxes. The second crop will begin to move late in December. This crop will run two and a half to three million boxes, against about 4,000,000 last year, which shows that the crop will be away short.

Mr. Tinsley attributes this shortage to the drought, which was of great duration, and more recently to the excessive and continued rains throughout the country.

THE MOTHERS' MEETING.

Was Held at Home of Mrs. Pitts, and Was Well Attended Monday.

The Mothers' meeting was held at the home of Mrs. T. W. Pitts, 401 West McCormick street, Monday afternoon, and was well attended.

These meetings, which are held at regular intervals, are becoming more interesting and instructive at each session, and those who manifest an interest are receiving great benefit. The meetings are proving most beneficial and instructive each month.

The program Monday comprised a list of musical and literary numbers which were indeed entertaining, and which will not soon be forgotten by those who heard them.

During the afternoon Mesdames Pitts and O. P. Cannon, who shared honors in entertaining, served delicious refreshments, which it is needless to add were enjoyed.

THE METHODIST CHURCH.

Four Accessions Made at Conclusion of Sunday Evening Service.

The services at the First Methodist church were well attended on Sunday evening, when the pastor, Rev. T. J. Nixon, delivered a most interesting sermon. Dr. Nixon is a preacher of great ability, always speaking with interest, and upon this occasion his hearers were deeply interested.

At the conclusion of the service four members were received into the church—three by letter and one by baptism and confession of faith. The service in all was a most enjoyable love feast, and those who attended were deeply impressed.

Napoleon Bonaparte

Showed, at the battle of Austerlitz, he was the greatest leader in the world. Ballard's Snow Liniment has shown the public it is the best liniment in the world. A quick cure for rheumatism, sprains, burns, cuts, etc. A. C. Pitts, Rodessa, La., says: "I use Ballard's Snow Liniment in my family and find it unexcelled for sore chest, headache, corns, in fact for anything that can be reached by a liniment." Sold by W. M. Johnson.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

R. Daigre and family, who have been residing at 206 West Church street for the past few months, have moved into the Brown House Annex, formerly known as The Commercial, 207 East Main street N., and will conduct the same as an up-to-date small hotel. Mr. Daigre announces that the house has been thoroughly repaired and overhauled, and will be opened to the public as a popular-priced resort in about ten days. Being a man of most affable disposition, there is no reason why he should not do well.

MUCH CONCERN FELT.

Ordinary Methods for Treating Catarrh Prove Unsuccessful.

Recent statistics showing an increase in catarrh have shaken the confidence of medical men in the usual prescriptions to safeguard human health from the ravages of this disease.

When stomach dosing proved ineffective, it was natural to look for some other treatment, and it is believed that in Hyomei an absolute cure for all catarrhal troubles has at last been found. Breathed through a neat pocket inhaler, its healing medication reaches every spot where there are catarrhal germs, destroys them, prevents their future growth, and soothes the irritated mucous membrane so that relief is felt almost instantly, while lasting cure is practically sure to follow.

The complete Hyomei outfit costs but \$1.00, and is sold by J. W. McCollum & Co. under an absolute agreement to refund the money if it does not give satisfaction. It is the only cure for catarrh that has ever been sold under a guarantee to cost nothing unless it cures, but J. W. McCollum & Co. have so much faith in its power to cure all catarrhal troubles that they are willing to take the risk, so if Hyomei does not help you there will not be a penny's expense. Get an outfit at once of this liberal plan.

Eight Injured in Wreck.

Harrisburg, Pa., Sept. 30.—Eight persons were injured in a wreck on the Pennsylvania railroad at Duncan on Friday, when the Altoona accommodation train leaving Harrisburg at 10:40 a. m., ran into a freight train. Railroad officials say that nobody was killed. A relief train having aboard four physicians was rushed through from Harrisburg.

DEAD MAN BOUGHT PIANO.

And Salesman Clinched Bargain Before Funeral Was Over.

The following anecdote, though a little gruesome, illustrates the extent to which some salesmen go to procure business, says The Delineator for October. It was recently related as actually occurring in Cincinnati, though we will not vouch for it.

"On his way to business, a piano man noticed a crape on the door of a house, and, ascertaining from the neighbors that the head of the family had died, immediately called on the widow, and in condoling said:

"And he was such a devoted husband! Only the day before his fatal illness, he visited my store and selected a piano to be sent to you as a present but, of course, this calamity has canceled the transaction."

"Naturally the bereaved wife insisted upon owning this last token from the departed, no matter what the cost, and the enterprising salesman closed a profitable sale, though his whole story to her was, of course, a fake."

DOCTORS PRESCRIBE SULPHUR.

But Sulphur Should Be Used in Liquid Form Only.

"Hancock's Liquid Sulphur is the most wonderful remedy for Eczema I have ever known," writes Dr. W. W. Leake of Orlando, Florida, who was cured of a case of years' standing.

Dr. W. A. Heard of Maitland, Fla., was cured of Eczema after he had suffered for thirty years, and says: "Hancock's Liquid Sulphur is the finest remedy for all skin troubles he has ever used or prescribed."

Doctors everywhere prescribe it, but they say sulphur should be used in liquid form only, as it is in Hancock's Liquid Sulphur.

Druggists sell it. Booklet free, if you write Hancock Liquid Sulphur Co., Baltimore.

It cures all skin and scalp diseases, if used in connection with the wonderful Hancock's Liquid Sulphur Ointment.

Will Visit Her Mother.

New York, Sept. 30.—It is understood that Consuelo, duchess of Marlborough has informed her friends in New York that she will sail for this country from England on Oct. 16 for a long visit with her mother, Mrs. Oliver H. P. Belmont. She did not say whether she would bring with her her two sons, the marquis of Blenheim and Lord Ivor Churchill, but it is thought only the younger will accompany her. The duchess last visited America in 1905, when she paid a brief visit to her mother at Newport and Hempstead.

Cuban Boy Sought Revenge.

New York, Sept. 30.—Because he had a grievance against Charles E. Eckman, a mess cook for company G of the United States signal corps stationed at Fort Wood, Bedlow's island, a Cuban boy employed as a laborer, attempted to blow up the kitchen with dynamite. He put several sticks of dynamite in the coal bin. When the dynamite was discovered the percussion caps were off, and in this condition the explosive was practically harmless.

Drank Lye For Suicide.

Columbus Grove, Ohio, Sept. 30.—Living on a farm west of here, away from her relatives in West Virginia, in a fit of homesickness and despondency, Mrs. Frank B. Core drank a large quantity of Red Seal lye. Death ensued a week later, during which time the woman suffered excruciating pain.

Cotton School for Georgia.

Athens, Ga., Sept. 20.—The state college of agriculture and mechanical art is to open in January a cotton school. This is one of the new features that will go to make the work of this college of immense benefit to the people of this state. President Andrew M. Soule is now busily engaged in working out the details of this school, and in a few days everything will be in shape for making a great success of this feature of agricultural training at the university.

Women's Pains

"I was a total wreck," writes Mrs. Beulah Rowley, of Champoe, Oregon, "from pains I had suffered, for 4 years, every month. Sometimes I would be unconscious for 12 hours at a stretch. I did not know that anything could stop the pain entirely, but Wine of Cardui did. I advise all women suffering with painful periods to use Cardui and be relieved."

It does this by regulating the functions and toning up all the internal female organs to health. It is a pure, specific, reliable, female remedy, with a record of 70 years of success. It has benefited a million others. Why not you? Try it.

"AUNT FLORA" IS DEAD.

One of Gainesville's Oldest and Most Widely Known Characters Gone.

Flora Brooker, aged about eighty years, and more familiarly known throughout the city by old and young alike as "Aunt Flora," has passed to her reward beyond, having expired with a dropsical affection at her home on West Masonic street Monday morning.

"Aunt Flora" was one of the most widely known characters of the negro race of this section of the country. For fifty years or more she has been engaged as a nurse in Gainesville, and proved a most faithful and efficient servant. She had a heart full of devotion for the children, and was always alert to their comfort and convenience. Everybody knew and revered "Aunt Flora," and even up to a year ago, owing to devotion to babies and her ability to take care of them, her services were in demand.

But "Aunt Flora," who was one of those conscientious colored Christians which placed religion before everything, has passed over the river, and her memory will be revered by the hundreds of mothers who had confidence in her, in many instances the woman nursing both mother and child in the turn of a generation.

"Aunt Flora" will be given an impressive burial today, as her pastor Rev. S. E. Huger, of Mt. Pleasant Methodist church, on Monday secured by subscription sufficient money to defray the expense of a casket, etc. The response was liberal, as the white friends of the deceased were desirous of knowing that the funeral was a decent one.

The funeral will be held at 9 o'clock today, Rev. Huger conducting the ceremonies. The interment will be in the colored cemetery, adjoining Evergreen.

In the Mayor's Court.

Butch Tisby was arraigned in the mayor's court Monday for the third time within a week upon a charge of gambling. Butch apparently loves the fascination of gambling to such an extent that it is hard for him to give it up. He was fined \$10 and costs, but through his attorney, T. B. Ellis, Jr., appealed the case.

Sarah Rowe and Agnes Lenon, two dusky damsels of the Seaboard depot district, were arraigned for fighting, and were fined \$5 and costs each.

John Woodson, for being drunk, was assessed a fine of \$1 and costs.

Java's Fire Island.

One of the greatest wonders of Java, "the fire island," a large lake of boiling mud, is nearly two miles in circumference, and in the center immense columns of soft, hot mud may be seen continually rising and falling, like great black timbers thrust forth and then suddenly withdrawn by a giant's hand. Besides the phenomena of the columns, there are two gigantic bubbles near the western edge, which fill up like huge balloons and explode on an average three times per minute.

SUFFERED WITH ECZEMA 25 YEARS

Limb Peeled and Foot Was Like Raw Flesh—Had to Use Crutches, and Doctors Thought Amputation Necessary — Montreal Woman Writes of Cure Seven Years Ago.

BELIEVES LIFE SAVED BY CUTICURA REMEDIES

"I have been treated by doctors for twenty-five years for a bad case of eczema on my leg. They did their best, but failed to cure it. My doctor had advised me to have my leg cut off, but I said I would try the Cuticura Remedies first. He said, 'Try them if you like, but I do not think they will do any good.' At this time my leg was peeled from the knee, my foot was like a piece of raw flesh, and I had to walk on crutches. I bought a cake of Cuticura Soap, a box of Cuticura Ointment, and a bottle of Cuticura Pills. After the first two treatments the swelling went down, and in two months my leg was cured and the new skin came on. The doctor could not believe his own eyes when he saw that Cuticura had cured me and said that he would use it for his own patients. I used two cakes of Cuticura Soap, three boxes of Ointment, and five bottles of Resolvent, and I have now been cured over seven years, and but for the Cuticura Remedies I might have lost my life. I have lots of grandchildren, and they are frequent users of Cuticura, and I always recommend it to the many people whom my business brings to my house every day. Mrs. Jean-Baptiste Renaud, clairvoyant, 277, Mentana St., Montreal, Que., Feb. 20, 1907."

Want Grebaks of Different Colors.

Atlantic City, N. J., Sept. 30.—If the secretary of the treasury will grant a request contained in a resolution presented at the American Bankers' association's convention, the teller's desk of the average national bank will somewhat resemble the ribbon counter of a department store. The resolution proposes that each denomination of bank notes be made of a certain color, as follows: One-dollar notes, slate; two's, brown; five's, green; tens, blue; twenties, yellow; fifty's, pink; and one hundred's and over, white. The resolution was referred to the incoming executive council.

Flood Damage of \$4,000,000.

Paris, Sept. 30.—The flood situation in the south of France is a little better. The papers announced accounts of the immense destruction caused in the department of Hérault, to which the damage is principally confined, and which is estimated to amount to \$4,000,000.

Mrs. Chadwick Ill.

Columbus, Ohio, Sept. 30.—Mrs. Cassie Chadwick, who is serving a term in the penitentiary for wrecking the bank at Oberlin, Ohio, was quite weak Saturday according to the official statement of the doctor in charge of the case at the state prison hospital.

ANTIQUITY OF GEOMETRY.

The Science May Have Existed in India For Long Ages.

Did we learn our rule of three and our Euclid from India? Researches have brought to light astronomical tables in India which must have been constructed by the principles of geometry. Some are of the opinion that they have been framed from observations made not less than 3,000 years before the Christian era, and if this opinion be well founded the science of geometry must have been cultivated in India to a considerable extent long before the period assigned to its origin in the west, so that many of the elementary propositions may have been brought from India to Greece.

The Indians have a treatise called the "Surya Sidhanta," which professes to be a revelation from heaven communicated to Meva, a man of great sanctity, about 4,000,000 years ago. This book contains a rational system of trigonometry which differs entirely from the first known in Greece and Arabia. In fact, it is founded on a geometrical theorem which was not known to the geometricians of Europe before the time of Vieta, about 200 years ago. And it employs methods of demonstration unknown to the Greeks, who used others. The former have been attributed to the Arabs, but it is possible they have received this improvement in trigonometry as well as the numerical characters from India.—Chicago Tribune.

Irish Stories.

An Irishman while taking a barge up the Shannon was asked what goods he had on board and answered, "Timber and fruit."

"What kind of timber and what sort of fruit?"

"Well, an' if ye must know, the timber is just birch brooms, and the fruit, well, it's pretaties."

An Irishman averred that the habit of Irish landlords of living outside of Ireland was the great grievance Ireland had to complain of.

"Oh, yes," answered an Englishman, "that's the old stalking horse! I don't believe in your absentees."

"Not believe in 'em! Come to Dublin with me and I'll show ye 'em by the hundred. Why, the country just swarms with 'em."

Ravenous Rats.

It is estimated that the rat does \$50,000,000 worth of damage a year in England. In a slaughterhouse near Paris rats in a single night picked to the bone the carcasses of thirty-five horses. There is very little that they will not eat; eggs, young birds and animals are among the dainties which they snap up in the ordinary course of business. But when pressed by hunger they will eat anything through which they can drive their terrible teeth. Rat will eat rat. The idea that a trapped rat will bite off an imprisoned leg and so escape is now said to be wrong; it is the other rats which do the biting. They eat the captive.

Unlucky at Bridge.

"Do you believe in this thirteen superstition?" asked Tete de Veau.

"I do," replied L'Oignon. "I could never understand why I was so unlucky at bridge till I discovered that I was always dealt a hand of just thirteen."—Exchange.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

It is not a very edifying spectacle to see still another Republican United States Senator indicted and tried on a charge of being concerned in timber land frauds, but we have become used to it of late.

The Democrats of Oklahoma are naturally rejoicing over the result of the recent election in that great new State. It was a glorious victory for them, and a great addition to the strength of the National Democratic party. Welcome Oklahoma.

Frank S. Katzenbach of Trenton, N. J., who as mayor reformed that city and whom the Democrats of New Jersey have nominated for Governor, is forty years old, and has served two terms as mayor of Trenton. The Democrats hope to carry New Jersey this year.

Henry Whitney, the nominee of the Democrats of Massachusetts for Governor, will make tariff reform the issue, and the Republican leaders are already calling on the protected trusts to "down with the dough," and are preparing to "fry the fat" out of the members of the Home Market Club.

The Charleston News and Courier says: "It would be very much like a new heaven and a new earth, if Henry Watterson were placed in the White House." Well yes! There would then be an end of this everlasting wrangle and jangle about cock-tails, mint juleps, and decent manners would be revised.

The most edifying spectacle of this political degenerate age is found in the appeal from Mr. Roosevelt to the people of Cleveland, Ohio, to rescue themselves and their city from a dictator like Tom Johnson, "who forces many to do his bidding through the power of patronage." Oh, how the pot ralls at the kettle's black face!

When the President comes South on his post-holiday trip he will address the Waterways Convention at Memphis. Whatever he says to the convention in a general political way will be interesting of course, but the matter to which he will have to address himself in part at any rate is one that virtually interests all of the immense population of the Mississippi Valley, and to a less intimate degree all the people of the United States. It is the old question, now brought more prominently to the fore, of a shipway from the lakes to the Gulf. This is a big undertaking, but with the completion of the Panama canal it will become increasingly important. It will mean an all-water outlet for the product of the mines of the lake region and the farm products of the Central States direct to the Orient. It will give the same sort of a route for the cotton and the mill products of the South. It will give this country the shortest and cheapest freight line to the Orient and the Occident for the greatest producing region of the whole world. It is not an engineering feat presenting any particular difficulties, and when completed, in conjunction with the Panama canal, it will place this country ahead of every rival in the race for the commercial supremacy of the world.

SUBVERTING THE CONSTITUTION.

In his recent speech at Jamestown, Judge Parker performed a great public service by analyzing the fundamental policy of the Roosevelt regime. He quoted from the text of the President's Harrisburg speech the words: "We need, through executive action, through legislative action and through judicial interpretation and construction of law, to increase the power of the Federal Government. If we fail thus to increase it we show our impotence." Judge Parker's principal objection to this revolutionary, not to say treasonable policy, was in substance that it is a brazen, unequivocal proposal to substitute for the constitution a government by commissions that in the end, through successive expansions of the commerce clause of the constitution, might cover almost every incident of productive and creative energy. Not by a constitutional amendment, but through the concerted action of the executive, the legislative and the judicial departments of the Federal Government. That it was, in other words, a proposal to change essentially the form of government in these United States by the creation of commissions empowered to deal judicially with special subjects; by the conferring upon the same commissions of legislative functions, through delegation of the power committed to Congress by the constitution; and finally by committing to the executive the unrestricted power of appointing and removing the members of such commissions; thus in practical effect concentrating in the hands of the executive alone unlimited power. Judge Parker has discovered the real issue upon which the next campaign must be fought, and he has presented it with a clearness which will command attention.

LOOKS LIKE STOCKTON.

Under the above caption The Tampa Tribune of last Sunday says editorially: "He has friends without number in the State of Florida, has J. N. C. Stockton, and each and every one of them is enthusiastic in the wish that he enter the race for Governor in next year's primary election. And it certainly looks as though he would yield to the urgent appeals reaching him from every direction and announce himself ready to satisfy so universal a desire.

"It is perfectly safe to predict that should he run he would completely outstrip every other candidate who has so far declared himself. Mr. Stockton is justly regarded as one of the brainiest, most honest and most capable men in Florida. This is the opinion not of his intimate friends only. It is the general belief throughout the State. His popularity is not based on any peculiar animal magnetism, on any of the superficial charms of personality that often win admirers, on rare powers of social entertainment or gracious bonhomie, but is the result of an understanding by the people of the true worth of the man and his great fitness to fill the executive chair.

"The Tribune is free to confess that it has a great admiration for the subject of our remarks and fully realizes with the multitude that if elected Mr. Stockton would make a Governor who would give impartial and complete attention to all affairs of State and would do honor to the exalted office."

Who ordered the Fairbanks cock-tails seems to excite the Indianapolis Methodist brethren more than who drank them. Nobody denies that the President got his share.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. It is a feature worth considering now that such strong efforts are being made to turn the tide of immigration Southward that the epidemic of violent crimes from which the North has suffered recently have been almost without exception committed by Italian immigrants. The Black Hand, the Mafia and the Camorra, if there be any difference between the three, have vied with each other in a perfect orgy of murder, assault, blackmailing and kidnapping. The bulk of these crimes have been committed by newly arrived immigrants, and almost without exception the criminals have been Italians. Of course it is not fair to judge a whole nation by its worst element. There has been Italian immigration in this country for decades, and the immigrants as a rule have made good citizens. Starting poor as organ grinders, fruit vendors and the like, many of them have come up to wealthy and good position in the business community. It used to be the exception rather than the rule to hear of an Italian committing anything worse than a petty crime. But the source of the Italian immigration has changed recently from the North to the South of Italy, and it seems to have brought into this country some truly undesirable citizens. As this is the case, and there is much talk of turning the newly arrived immigrants South as farm laborers, it may be well for the Southern States to sift this class of importation very carefully before accepting it. The South has had trouble enough managing the colored man and brother along this same line, and it is not worth while to tangle up with any new racial troubles if they can be avoided.

BANKERS' CONVENTION ENDS.

Ingalls Makes Address in Which He Defends the Railroads.

Atlantic City, N. J., Sept. 30.—The thirty-third annual convention of the American Bankers' association ended Friday.

A feature was an address by M. E. Ingalls, president of the Merchants' National bank of Cincinnati, in which he declared "that public men should cease the talk which gives the inference that everything in our corporation life is rotten, which disturbs business and harms our fair reputation all over the world."

"It is not true," he declared, "that our business generally is being conducted on unlawful lines. I can state here, and defy contradiction, that the railroads of this country are being conducted in accordance with the letter and spirit of the law."

Accident on 'Frisco Line.

St. Louis, Sept. 30.—Two coaches of the 'Frisco passenger train No. 4, from Texas, were wrecked by a collision with a freight train just inside the city limits late Friday night. The freight ran through an open switch upon the main track just as the passenger was passing and went between the first and second coaches. A. R. McNeill, of Salem, Mo., who was sitting in the rear of the first coach, had his hip crushed. Several others were slightly bruised.

Boy Struck by Lightning.

Lumber City, Ga., Sept. 30.—Avery Shepherd, 15 years of age, residing 8 miles east of here, was struck by a bolt of lightning Thursday night and instantly killed. He lived with his father on the farm of John W. Green, who had been picking cotton all day. About night a storm began to gather and he returned to his father's home, where he was struck. The electric storm was said to be one of the severest ever witnessed in that community.

Dancing Birds.

One of the many strange sights on the plains of southern Africa is a party of waiting ostriches. Their queer antics have been described thus:

"When there are a number of them they will start off in the morning and after running a few hundred yards will stop and with raised wings will whirl rapidly round till they are stupefied or perhaps break a leg. The males pose also before fighting and to make their court. They kneel on their ankles, opening their wings and balancing themselves alternately forward and backward or to one side or the other, while the neck is stretched on a level with the back and the head strikes the sides, now on the right, now on the left, while the feathers are bristling. The birds appear at this time so absorbed in their occupation as to forget all that is going on around them and can be approached and caught. The male alone utters a cry, which sounds much like an effort to speak with the mouth shut tight."

Sweets and the Disposition.

Nothing could be said in greater praise of a people than that they like sweets. It shows a wholesome, vigorous, healthful condition, an appetite not jaded from excessive indulgence. The child whose appetite has not become polluted or calloused by false relishes, smarting sauces and burning drinks loves sweets; so does the girl of bright eyes and untainted youth, as is evidenced by her fondness for ice creams and desserts. The young athlete among men loves sweets nearly as well as does the child. But the bar-room lounge, the "cigarette fiend," the "dope fiend" and the depraved of all other classes do not like sweets. Long ago their minds and appetites lost the desire for everything pleasing to the natural palate.—What to Eat.

Evolution.

"Father," said little Bello, "what is evolution?" "Evolution, my son, is a sort of apology which man has invented for displaying so many of the traits of the lower animals."—Washington Star.

Good Plan.

"How can I prevent the flies getting into my sugar bowl?" wrote a "Contented Reader" to a journal. "Fill the sugar basin with salt," was the laconic reply.—Pole Mole.

Words of Praise

For the several ingredients of which Dr. Pierce's medicines are composed, as given by leaders in all the several schools of medicine, should have far more weight than any amount of non-professional testimonials. Dr. Pierce's Favorite Prescription has THE BADGE OF HONESTY on every bottle-wrapper, in a full list of all its ingredients printed in plain English.

If you are an invalid woman and suffer from frequent headache, backache, gnawing distress in stomach, periodical pains, disagreeable, catarrhal, pelvic drain, dragging down distress in lower abdomen or pelvic, perhaps dark spots or specks dancing before the eyes, faint spells and kindred symptoms caused by female weakness, or other derangement of the feminine organs, you can not do better than take Dr. Pierce's Favorite Prescription.

The hospital, surgeon's knife and operating table may be avoided by the timely use of "Favorite Prescription" in such cases. Thereby the obnoxious examinations and local treatments of the family physician can be avoided and a thorough course of successful treatment carried out in the privacy of the home. "Favorite Prescription" is composed of the very best native medicinal roots known to medical science for the cure of woman's peculiar ailments, contains no alcohol and no harmful or habit-forming drugs.

Do not expect too much from "Favorite Prescription"; it will not perform miracles; it will not dissolve or cure tumors. No medicine will. It will do as much to establish vigorous health in most weaknesses and ailments peculiarly incident to women as any medicine can. It must be given a fair chance by perseverance in its use for a reasonable length of time.

You can't afford to accept a secret nostrum as a substitute for this remedy of known composition.

Sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is guarded as sacredly secret and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets the best laxative and regulator of the bowels. They invigorate stomach, liver and bowels. One a laxative; two or three a cathartic. Easy to take as candy.

PRIMITIVE ANCHORS.

Stones and Wooden Tubes Filled With Lead First Used.

There appear to be two ideas which have led up to the invention of the modern anchor—first, that of attaching the vessel by means of a rope or chain to a weight sufficiently heavy to keep the vessel from moving when the weight has sunk to the bottom of the sea, and, second, that of using a hook instead of or in addition to the weight, so as to catch in the bottom. The English word anchor is practically the same as the Latin ancora and the Greek ankura, meaning "that which has an angle," from the root ank, bent.

The earliest anchors made on the hook principle probably only had one fluke instead of two. In the "Sussex Archaeol. Coll." there is an illustration of what has been surmised to be an anchor made out of the natural forked branch of a tree. It was found with an ancient British canoe at Burpham, Sussex. There is in the British museum an interesting leaden anchor with two flukes bearing a Greek inscription. Its date is about 50 B. C. and it was found off the coast of Cyrene.

The invention of the anchor with two flukes is attributed by Pausanias to Midas, by Pliny to Eupalamas and by Strabo to Anacharsis. Diodorus Siculus states that the first anchors were wooden tubes filled with lead, while another classical writer says that before the introduction of metal anchors lumps of stone with a hole through the middle for the attachment of the cable were used.

The form of the anchors used by the Greeks and Romans is well known from representations on Trajan's column and in the catacombs at Rome as an early Christian symbol. This form does not seem to have changed materially for quite a thousand years, as is shown by the Bayeux tapestry.

The Girls Were Still One Ahead.

A young and bashful professor was frequently embarrassed by jokes his girl pupils would play on him. These jokes were so frequent that he decided to punish the next perpetrators, and the result of this decision was that two girls were detained an hour after school and made to work some difficult problems as punishment.

It was the custom to answer the roll call with quotations, so the following morning, when Miss A.'s name was called, she rose and, looking straight in the professor's eye, repeated, "With all thy faults I love thee still," while Miss B.'s quotation was, "The hours I spend with thee, dear heart, are as a string of pearls to me."—Ladies' Home Journal.

Respect at Last.

"Briefeligh is, I think, one of the greatest lawyers in this state."

"Why, I heard you say once that you didn't consider him any good."

"Oh, that was years ago. He used to give me pointers on legal matters without charging me anything because we happened to have offices adjoining each other. Recently he has been charging me a stiff price every time I have gone to him for advice."—Chicago Record-Herald.

CENSORSHIP IN RUSSIA.

Forging Seals on Letters and Replacing Stamps.

The modus operandi of the political postal censorship, which has for some time past been unusually active in its scrutiny of private correspondence, has not materially changed since the time when the nihilist propaganda first aroused its energies.

The boiling kettle and steam vapor application are still in vogue, except where the intercepted letter bears a wax seal or seals. To open and reclose a sealed letter without leaving any easily noticeable traces of it having been tampered with is a process requiring some little delicacy of manipulation on the part of the inquisitor.

A thin, sharply edged steel blade heated just to the requisite degree to pass under and remove the seal intact is used, but if this is done clumsily, writes the Odessa correspondent of the London Standard, then, unless the letter be appropriated or destroyed, a new seal must be made. This is effected by taking a mold of the seal with a substance whose chief ingredient is gypsum and the embossed appliances of the cabinet noir quickly furnish from the mold a new seal of the same kind of wax practically indistinguishable from the old one. It is customary in this country to attach the postage on a letter as a wafer instead of a seal—that is, the postage is placed on the reverse side of the envelope, covering the point of the joining flap.

This almost invariable custom renders the application of the steam kettle a comparatively easy matter, and if the postage be occasionally destroyed it is readily replaced by new postage of the same denomination, and the obliterating stamp of the place of origin is again applied. A suspect letter may be opened at the postoffice of its destination, but that is of no consequence, as every branch cabinet noir possesses obliterating stamps for every city and town in the empire, and should the intercepted epistle be of foreign origin the expert officials can very rapidly prepare a perfect counterfeit of the obliterating stamp.

A different process, and a very simple one, is employed when the cover of the arrested letter is of stout texture, such as the official stationery commonly used in the diplomatic and other official services, and is sealed. The upper or lower or one of the end folds of the letter is carefully cut with a narrow and extremely sharp paper knife, and the slit fold is rejoined with a special kind of very fine and strongly adhesive cement, which is of various colors to match the particular shade of envelope operated upon. The natural crease in the fold of very thick paper greatly assists the success of this process.

It was first publicly revealed some twenty years ago through a curious blunder on the part of a postal inquisitor in St. Petersburg. A member of the clerical staff at the Quai d'Orsay had written a private letter on official paper to a friend in the French legation in the Russian capital. The envelope bore three seals and was apparently intact when delivered.

On opening the letter the recipient was astonished to find inclosed a Russian translation of the same in pencil script. The postal inquisitor had inadvertently inclosed his Russian transcript. The indignant receiver made a very strong protest in the proper quarter, and six weeks later he was politely informed that the "erring official" had been severely reprimanded and that there would be no repetition of the irregularity.

Early Whist.

Mrs. Hervey writes on Oct. 25, 1697, to her husband that his "four sisters have been hear this afternoon, and as they never come unattended, brought with them Mr. Ga—, Mr. Down— and Mr. Bo—. Part of them staid and played at whish (sic) tel this moment, which is past 11 a'clock."

Twenty years later (March 18, 1717) Lord Hervey, as his title was then, writes to the Rev. Mr. Thomas Foulkes, the tutor of Mad Tom Hervey, at Oxford, about that son's gambling propensities. He is to follow the example of his "good grandfather Hervey, who, pray tell Tom, never played at any game but whist, and at that only in Christmas time for sixpence a corner."

Lady Bristol was at Bath in April, 1723, and was then in the center of the world of whist. "Poor Bishop Nevell," she writes, "can scarce be reckoned among the living, being (in my opinion) worse than dead. They say he sits at Lindsey's with one to hold his cards and another to give him snuff. Paley and gout have brought him to this miserable condition." On May 1 she cheerfully informs her husband that the diversion of the evening is the puppet show. "Betty is gone with Lady Torrington. The whisks have promised me some diversion after 'tis over."—London Notes and Queries.

COMER WRITES SOLONS.

He Proposes to Call Extra Session of the Alabama Legislature.

Montgomery, Ala., Sept. 30.—Gov. Comer Friday gave out a copy of the letter which he is sending out to the members of the legislature in reference to the extra session, in which he says:

"It looks practically certain that it will be necessary to call the legislature in extra session. I will call for you to convene about November 7."

This letter to the members of the legislature says that all the railroads

GOV. B. B. COMER.

have put into effect the recently enacted laws regulating the rates with the exception of the Louisville and Nashville, the Central of Georgia, and their allied lines.

"Unfortunately for the state," says the governor, "the Louisville and Nashville has so long dominated all functions looking toward railroad legislation or control that they cannot realize the danger to the shipping interests of the state that will necessarily come from these conditions."

Continuing, the governor says:

"It is now universally recognized that the protection of the people and the protection of the state demand that limitations should be established by law regulating freight charges."

That Tired Feeling.

If you are languid, depressed, incapable for work, it indicates that your liver is out of order. Herbine will assist nature to throw off headaches, rheumatism and ailments akin to nervousness and restore the energies and vitality of sound and perfect health. J. J. Mouse Stops Lighting Plant.

Waynesboro, Ga., Sept. 30.—A small mouse jumped through a window in the city power house and was electrocuted Thursday night. Twenty thousand volts passed through its body, completely baking the rodent, burning out several fuses, short-circuiting the dynamo and stopping the lighting plant for about three hours. It also started a fire that was, however, soon put out.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

HALL CAINE COMING.

Great British Author Will See Dramatization of his Book

Atlanta, Sept. 30.—Hall Caine, the great British novelist, is expected to arrive in Atlanta some time Monday in order to witness the first night production here of the dramatization of his book "The Bondman," with Wilton Lackaye in the role of Jason.

The Bondman had a long run in England, but this is the first year that it has ever been produced in America, the management of Lackaye securing the American rights to the play some time ago.

The initial performance was given in St. Louis, and Lackaye is now making a tour of the south before going to New York to give the play its Broadway baptism.

Believe Infant Was Murdered.

Macon, Ga., Sept. 30.—In a signed communication Sheriff George B. Robertson expresses the belief that the murder of Roscoe Arnold, the infant at the Door of Hope on Arch street, was committed by some one on the inside of the house. All officers connected with the sheriff's office believe some inmate did the deed and Coroner T. M. Young also expressed this belief immediately after the investigation in which a jury returned a verdict saying that unknown persons did the deed. All officers are fully convinced that the crime was committed at the home and they have been open in these statements since the stewards of the First Street Methodist church asked the co-operation of the officers of the law in finding the person who committed the crime. There are indications that the case will be pushed further.

Boy Dies of Blood Poisoning.

Atlanta, Sept. 30.—Johnnie Hornsby, aged 12 years, who had his legs crushed by a wagon three days ago, died late Friday afternoon from the effects of blood poisoning. On Tuesday, while returning from school, Cornell, Ga., to his home near Lake wood, he became entangled in a wagon, and his legs were horribly crushed by the big wheels. He was taken to the residence of his parents, Mr. and Mrs. J. W. Hornsby, Jr., and lingered in intense agony until late Friday afternoon.

When He Enjoyed Life.

Among the tombs near the old Arlington mansion on the Chesapeake is the mausoleum of John Custis, the father of Martha Washington's first husband. It bears this suggestive inscription:

Beneath this Marble Tomb lies the Body of the Honorable John CUSTIS, Esq. Of the City of Williamsburg and Port of Boston.

Formerly of Henricus Parish on the Eastern Shore of Virginia and the County of Northampton the Place of his Nativity.

Aged 71 years, and yet lived but seven years.

Which was the space of time he kept A Bachelor's House at Arlington On the Eastern Shore of Virginia.

It is said that before his marriage Custis did have a free and easy life. His marriage was of importance to his country, for he was the progenitor of several leading families. One would like to know Mrs. Custis' version of the life they had together, which he regarded as unworthy to be called living.—Youth's Companion.

Finding a Grave With an Egg.

The Miao-tze, a little known tribe in Asia, are very superstitious about death and will not bury a man until they have first tested the ground with an egg. This operation is very curious. While the body is being prepared for burial a number of Miao-tze, including the male relatives of the deceased, go out to the appointed spot bearing a large basket of eggs. Stooping down, one of the natives lets an egg drop softly on the ground. If it breaks it is considered an ill omen, and another spot is selected. In this way the party often wander about for hours, breaking eggs over the ground until they finally strike a place where the shell does not crack.

S.S.S. CURES SKIN DISEASES

No skin disease can exist without an underlying cause, and in most instances that cause is either a humor in the blood or an excess of fiery acids in this vital fluid. These humors and acids get into the blood, generally because of an inactive and sluggish condition of those members whose duty it is to collect and carry off the waste and refuse of the body. This unhealthy matter is left in the system to sour and ferment, and soon the circulation becomes charged with the acid poison. The blood, in its effort to rid itself of this foreign matter, begins to throw off the humors and acids through the pores and glands of the skin. These coming in contact with the delicate tissues and fibers with which the skin is so abundantly supplied produces irritation and inflammation on the surface, and Eczema, Acne, Tetter, Psoriasis, Salt Rheum, or some other troublesome and disfiguring skin disease is the result. External applications, while they soothe the itching, and are beneficial in keeping the skin clean, can never cure skin affections, because they do not reach the blood where the real trouble is located. A thorough cleansing of the blood is the only permanent cure for skin diseases. S. S. S., the greatest of all blood purifiers, is the best treatment. It cures by neutralizing the acids and removing the humors from the circulation so that the skin, instead of being irritated and diseased by the exuding acid matter, is nourished and soothed by a cooling, healthy stream of blood. S. S. S. goes down to the very bottom of the trouble, removes the foreign matter and thereby permanently cures every form of skin trouble. Do not expect to cure a blood disease with local applications alone, but begin the use of S. S. S., and when you have removed the cause the skin will be free from disease. Special book on Skin Diseases and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Famous Lilac Tree.

Chief among the many objects of interest in the gardens of Easton Lodge, Dunmow, the residence of the Earl and Countess of Warwick, is the magnificent blue tree which occupies a conspicuous position on the terrace. This tree is the finest specimen of its kind in the United Kingdom. It has a circumference of 120 feet and a height of sixteen feet, and it has so dense a growth of blossoms so profusely that when in flower it forms a huge bouquet of blue blossoms.

This tree is that commonly known as the Persian lilac, but it is not a native of either Persia or China, but was raised in the Botanic garden in 1755 by the hybridization of the true Persian lilac and the common lilac of British gardens.

It was of noble proportions at the middle of the last century and produced such a magnificent display of blossoms that in the flowering season Viscount Maynard, Lady Warwick's grandfather, used to make a special journey from London to enjoy the beauty and fragrance of the flowers. Gardener's Magazine.

A Substitute.

"You're rather a young man to be left in charge of a drug store," said the fussy old gentleman. "Have you any diploma?" "Why or no, sir," replied the drug clerk, "but we have a preparation of our own that's just as good." Philadelphia Press.

Consolation.

"Steward, how long will it be before we get into the harbor?" "About an hour and a half, ma'am." "Oh, dear, I shall die before then." "Very likely, ma'am. But you'll be all right again when you've been on shore ten minutes."—Marine Journal.

ABOUT OYSTERS

It's a matter of confidence—confidence in the person selling them. If you know they are handled properly, prepared and cooked cleanly, then you are satisfied. Oysters require careful attention when away from the coast, and should be prepared by one who knows at a glance if they are fit to be cooked.

For two seasons I have prepared and served you the best Oysters grown, and have never had one complaint.

They are here now—and, as they should be, First-Class in every way. Open every night till 10:30—later if necessary.
